Website: <http://johnadamski.com/150f2019.html>
http://math.sci.ccny.cuny.edu/courses?name=Math_15000
Blackboard: ... will be used for posting grades.
Academic Integrity: <https://www.ccny.cuny.edu/about/integrity>

GRADES

40% Quizzes (5 - lowest quiz grade will be dropped)
20% Midterm Exam
40% Final Exam (Date and Time TBD)

OVERVIEW

Each day in lecture we will learn new material, following the syllabus (http://johnadamski.com/150f2019/Syllabus_150f2019.pdf). As soon as each section of the textbook is completed, homework exercises from the textbook will be posted to the class website (<http://johnadamski.com/150f2019.html>) and assigned. These exercises will not be collected, but it is essential to your understanding that you work through them before the next lecture. Detailed solutions will also be posted so that you can check your work. You are encouraged to ask questions at the beginning of class about any exercises you do not fully understand.

Quizzes and exams will be based on assigned exercises. The dates of quizzes and exams are on the syllabus. You are required to obtain and know how to use a scientific calculator capable of handling square-root and exponential expressions (e.g. $\sqrt{2}$, 1.06^3 , etc.). Your cellphone cannot be used as a calculator during a quiz/exam. In general, no make-up quizzes or exams will be given. If you have to miss a quiz/exam, you must email me in advance and include a justification for your absence.
